

Here is a map of the \$800,000,000 St. Lawrence Seaway to open the Great Lakes to ocean commerce. Plans call for construction of a 27-foot canal from Montreal to Lake Ontario, approximately 160 miles. Two dams will be built, one

Hon. V. W. Smith,
Minister Railways,
Dies In Heart Attack

Today
Sudden Card Comes as He Loads Auto in Front of Residence

Stricken by a paralytic stroke as he was about to place some parcels in his automobile in front of his home on 107 street, prior to driving to his summer cottage at Pigeon Lake, Hon. Vernon W. Smith, minister of railways and telegraphs in the Alberta government, died at 7:30 a.m. Monday, within a few minutes of the seizure.

The Minister had been in conference with a short time before with Premier J. E. Brown and had then repaired to his home to prepare for the drive to Pigeon Lake, a drive he was to make on the day of his death.

DR. CHATHAM CALLED
A neighbor saw his flight and called Dr. H. E. Chatham, his physician and neighbor. Death took place within a few minutes.

Hon. Mr. Smith had been subject to attacks of angina pectoris, a contraction of the muscles about the heart, for several years and it is believed that he had been advised to leave the province.

Police Placed in Direct Control of Federal Minister of Defence—Disobedience Punishable by Death.

MUNICH, Bavaria, July 20.—The Bavarian government announced today it will protest to President Von Hindenburg, Chancellor von Papen and the supreme court of Germany against the appointment of a federal commissary conference for the Free-Trade Manchester Guardian, reports an optimistic feeling resulting from the belief that Canada is prepared to make "substantial concessions."

The police are placed under direct control of General Kurt von Schleicher, the federal Minister of Defense. Resistance to his orders and disobedience will be punishable by death if such resistance involves loss of life.

Placards appeared throughout the city, bearing announcements by General Von Hindenburg that he had been asked to sign the declaration of martial law. He called upon the people to maintain order. Punishment was threatened for any one defying the powers.

No Hope Held To Settle Strike

Keen Determination to Make Empire Landmark in Empire Trade

By GEORGE HAMILTON
Canadian Press Staff Writer
OTTAWA, July 20.—The empire conference is all but complete. All the delegates have arrived and observers have poured into Ottawa. The Irish Free State, newest of Dominions, was first to arrive at the conference scene. Newfoundland, oldest of British colonies, will be last to have its delegates complete. Hon. R. F. Bennett, minister of justice for Newfoundland, arrived with the advance guard. But Premier Bennett, dismayed by the political situation in Newfoundland, will not attend the conference.

And among all delegates there is a keen determination to make the conference a landmark in the development of empire trade. The British Empire has been the scene of bitter and bloody struggles but in peace resolutions but in concrete results. Preliminary discussions have already paved the way. Hon. Stanley Bruce, leader of Australia's delegation, is expected to be the principle of imperial preference. Hon. Stanley Bruce, leader of Australia's delegation, is expected to be the principle of imperial preference. Hon. Stanley Bruce, leader of Australia's delegation, is expected to be the principle of imperial preference.

There is one feature of British policy that is not being adopted in the background. Rather than impose a tax on Great Britain, the adopted the principle of imperial preference. The British Empire has been the scene of bitter and bloody struggles but in peace resolutions but in concrete results. Preliminary discussions have already paved the way. Hon. Stanley Bruce, leader of Australia's delegation, is expected to be the principle of imperial preference.

B.C. Citizens' Committee Has Drastic Recommendation to Offer

VICTORIA, July 20.—The legislature of fourteen members, inclusive of a cabinet of six, is the anticipated recommendation of the B.C. Citizens' Committee. An annual budget of \$10,000,000 is expected to be another recommendation, with suggestions of revenue and expenditure cuts to help meet the needs of the province.

It was learned from several sources that the committee has been in session for several days, and that the report is expected to be presented to the legislature in the near future.

REDUCE TO 14

Dealing with the make-up of the legislature, the report is expected to suggest the present membership of 14 be reduced to 12, to include seven as a minimum and twenty-eight as a maximum, with a further recommendation that the present cabinet of six be reduced to four.

REVISION OF RIDINGS

Reduction of the provincial riding boundaries is also suggested, with one not more than two members to be recommended for each riding. The report also suggests that the present boundaries be revised to include seven as a minimum and twenty-eight as a maximum.

CUT EXPENDITURES

The expenditures in 1931-32 were estimated at \$10,000,000, and the report suggests that the present expenditures be reduced to \$8,000,000, with a further recommendation that the present cabinet of six be reduced to four.

Farmers Urged To Hold To \$1 Wheat

**P. Burns Company
Products Proving
Great Attraction**

Each year hundreds of visitors to the exhibition pour around the exhibit of P. Burns Co. and admire the display of its products.

This year some specialty noteworthy features have been included and much interest is being shown in the miniature packing plant and the various methods of transportation used by this firm.

The "Burnscentral" on its endless journey around the steel ribbons is a matter over which the visitors are enthusiastic, depicting as it does the transportation of Burns' products to all parts of the world.

Then there is a miniature home with a doll on the veranda, with other dolls at a tea party. The "Burnscentral" is a matter over which the visitors are enthusiastic, depicting as it does the transportation of Burns' products to all parts of the world.

'I'll Say It's Wet'

After the landslide for repeal at the Democratic convention, while the big whopper was going full blast, John J. Raskin, national committee chairman, turned to Governor Ritchie and what do you suppose they said? Maybe the caption over this picture caught it?

NORTH DAKOTA GROWERS HAVE CLARION CRY

Huge Chorus Expected to Stir Up Enthusiasm of Agric.

TOLNA, N.D., July 20.—Across the prairie of North Dakota, expected to produce one-sixth of the United States' wheat output this year, is heard a chorus—"hold the grain for one dollar a bushel!"

If growers are successful, the cry will be taken up throughout the United States.

Dell Willis, Tolna farmer, is chairman of the organization which has stirred the farmers in more than 900 North Dakota counties to pledge holding their wheat, effective August 1, unless and until the dollar level is reached.

"This price of one dollar has brought us to a position where it is either sink or swim," Willis said.

There is a demand for it at the set price of one dollar per bushel and then we will sell only 10 per cent of it in one month," Willis continued.

"This will make an orderly marketing system."

**National Music Co.
Has Fine Display of
Band Instruments**

Visiting the manufacturers' building at the exhibition grounds and coming upon the exhibit of the National Music Company, it might easily be imagined that the display of the National Music Company is a few minutes before and left their beautifully polished instruments neatly arranged in an attractive group.

The National Music Co. has included in its exhibit practically every known band instrument. This firm specializes in orchestral and band instruments as well as in sheet music, both classical and popular, and has a large stock of instruments that have been given in the manufacturers' building and it is well worth anybody's time to visit it.

**Hayward Lumber
Display Attracts
Exhibition Visitors**

For high class workmanship and best quality material, the exhibit of the Hayward Lumber Company in the Manufacturers' building at the Exhibition grounds.

This company has constructed a hall interior that might be the entrance to any Edmonton home. There is a beautiful white front, then two lovely hardwood parlors, with stairs of hardwood gracefully opening out in easy incline.

Then there is a fireplace, built of wood and of a striking design. French doors on one side lead out to a glimpse of the outdoors, and a sign, door constructions and paint recommended for special use, all of which gives the visitor much aid and valuable information on latest developments in the desirable art of home-building.

Every bit of wood in the whole display has been supplied from Hayward Lumber Company products, while construction has been done by firm employees.

A remodeling expert is in attendance to give such advice on home building as the visitor desires.

The gall or gall-bladder is present in most vertebrates, but it is absent from doves and pigeons.

DROPPING THE C.N.R. PILOT

Mr. D. Manion put a notch on his lance or hypo-
dermic syringe—whatever it is!—that doctors carry instead
of a gun. He has succeeded at last in his effort to drive
Sir Henry Thornton out of the Canadian National system
and leaves it without the directing genius. The Fort William
medico now ranks with the young Kaiser Wilhelm, who
succeeded in dropping the old pilot, Bismarck, as a pre-
lude to his coming to the throne.

It has been apparent, ever since Hon. Dr. Manion at-
tained his position as Minister of Railways, that he was
not to drive Sir Henry from the service of the people of
Canada.

What is the underlying motive?

Many people were told that Premier Bennett
had selected Hon. Dr. Manion for his cabinet after the
short-lived career of his minister as a member of the
Liquor Control Board of Ontario, for which no adequate
public explanation has been given.

Hon. Dr. Manion showed the trend of his political ideas
in his statement to the parliamentary committee which
inquired into the C.N.R. situation, provided that the
granting of the contracts on political lines to friends
saying "That is as it should be." No more barbed point
of business attorney has suited the political maneuvering
of Canadian ministers than those made in committee.

In a country where a more healthy condition of public
morality is required, that expression of political hygiene
which was enough to cause his removal from public
life. No more gross and vicious a policy could be emu-
lated, or one more calculated to harm the Canadian
National system, without the intention to protect this
cynical announcement making the supply branch of the
road an outgrowth of the Government's political machin-
ery. Hon. Dr. Manion's career of the department of
Canada, attested his usefulness as a public man, and should
be eliminated from public life.

Sir Henry Thornton has been a powerful force in the
organization of the C.N.R. since it was built in the
west of Augustus that he found Rome built of brick and left
it built of marble. Sir Henry found the C.N.R. a collection
of misadventures and bankrupt roads, and he turned it
into one of the world's great transportation systems.

Ever since he attained office, Hon. Dr. Manion has been
unhappily married to Sir Henry. He has been a failure
of his political spirit. He has tried to force it into por-
tuguese politics. Now he has succeeded in driving out the
railway giant who re-organized it under difficulties and
who has built it up, under conditions of great difficulty,
into a mammoth system.

Sir Henry tried to keep the road out of political patronage.
Now that Hon. Dr. Manion has been driven out, he
shall see what course he steers and whether his aim is
to drive the C.N.R. back upon the rocks.

DISCOUNTS FOR EARLY PAYMENT

Alderman Baker has given notice of a motion to be
brought before his council, reading:

"The Council may be bled by fix and allow such dis-
counts or reductions for the payment of all or any
taxes or any part or parts thereof, to be made on the
day or days provided for the payment thereof, including
the payment on account of any such taxes before the
date when the same are fixed, provided that no dis-
count or reduction shall exceed six per centum."

In other words, that taxes should be payable neat
and in full, and that the city treasury, a graduated dis-
count being allowed according to the time payment is
made, the discount would not exceed six per cent.

The proposal is to abandon the practice of imposing
penalties if taxes are not paid by certain arrival fixed
dates, and to return to the system of granting discounts
for early payment, with the proviso that those who pay
early shall get the largest discounts.

The advantages of this method from the stand-point of
the city treasury are apparent. Tax money would be
coming in from the first of the year, even before the tax
bills had been sent out. The city would be able to
arranging temporary loans at the bank a matter of some
importance in these times of badly involved financial
conditions.

Instead of borrowing from the bank the city would
be borrowing from the taxpayers, to the extent to which
the latter found it worth while to pre-pay their taxes.
That many would prefer to pay the inevitable bill later
and thus secure the maximum discount, appears al-
together likely. Under the present system they are denied
that privilege, to which they may surely claim to be
justly entitled.

The objection formerly raised to the discount system
of encouraging early payment was that this made neces-
sary the levying of a higher tax rate, in order to
cover the discounts. But the tax rate has to be raised
in order to pay interest on the bank loans that are neces-
sary when taxes are not paid in advance. It is not
practise the discounts granted the early taxpayers would
only offset the interest now paid to the bank, since there
is little prospect of their ever flooding the city treasury
with money any in advance of the time when it is needed.

A MISCALCULATION

Whoever compiled the information given out at Ottawa
regarding the St. Lawrence Railway agreement appears
to have made a mistake of \$100,000,000 in computing the
sum the Dominion would have to provide to complete that
project.

It is stated that the net cost to the federal treasury would
be only \$100,000,000. But the detailed figures given do not
agree.

There is estimated to be needed \$125,000,000 to meet
Canada's share of the cost of deepening the international
Canal.

section of the river, plus \$82,000,000 for the necessary works
in the Quebec section, a total of \$207,000,000 required to
complete the enterprise.

The province of Ontario is to refund \$67,000,000 of this
amount, because the dams constructed for navigation pur-
poses will make it possible to develop power for use in that
province. That leaves a balance of \$140,000,000, not \$300,000,
to come out of the pockets of the Dominion taxpayers.

It is calculated that ten years would be required to dig
the necessary canal, build the dams, and deepen the chan-
nel where necessary. Spread over a ten year period, the
estimated cost to the Dominion is not excessive, and the
enterprise is well within the ability of the country, if the
chopping of freight or the collection of tolls could be
made to warrant the investment. That, rather than the
cost of the improvement, is the major question.

HON. VERNOR W. SMITH

The sudden death of Hon. Vernor W. Smith, Minister
of Railways and Telephones, is a profound shock to the
people of Alberta, as it is a blow also to the Government.
Mr. Smith has been widely popular among the members
of the legislature, and even those of them who could not
agree at all times with his policies were constrained to
admire the efficiency with which he carried on the adminis-
tration of the two departments over which he presided.

To the public he has been known as a hard-working and
capable Minister, and as well a man of great personality.
The name of Mr. Smith is particularly associated with
the successful sale of the northern railways to the two
transcontinental, and the introduction of these larger
systems into the transportation network in northern
Alberta. That sale relieved the department of railways of
its heaviest responsibility, and left the Minister free to
concentrate his attention to the operation of the provincial
telephone system.

It will not be easy to find a successor so well qualified
to direct that enterprise through the difficulties that have
been imposed upon it by the drastic change in economic
conditions.

W. F. Bredin leaves for Winnipeg tomorrow.
Rev. C. R. Weaver, missionary at Wabasca, arrived
yesterday with his family from the north.
The "Laramie" left for the north today.
Mrs. Clara Stewart and daughter arrived last night
from Tacoma, Washington. Mrs. Stewart resided in Ed-
monton in the early '80s.
E. C. Roberts, of the Bredin and Cornwall trading firm,
arrived from the north en route to England.
C. Cunningham, ex-M.L.A. for St. Albert, arrived from
Lester Lake on Thursday.

TWENTY YEARS AGO

The regular meeting of the Edmonton Trades and Labor
Council last night was addressed by W. R. Trotter of Van-
couver.
The new Normal School at Camrose is to cost one hun-
dred and twenty-five thousand dollars.
Ottawa, Canada—New barracks for the North West
Mounted Police are to be built at Edmonton.
Washington, D. C.—The Senate Committee recom-
mends that the United States Steel Corporation be dis-
solved and endorses the suit filed that the Government
is proceeding to bring against it.
St. Petersburg, Russia—The reorganization of the Rus-
sian army is regarded with mingled feelings of bewilder-
ment and distrust by Britain and France as showing too
much of a tendency to the right of a big war.
Paris, France—Robert Latham the Anglo French air-
man was killed by a wild Buffalo in the French Congo.

TEN YEARS AGO

Chicago, Illinois—Abandonment of an early settle-
ment of the railway strike executives of the railways have
prepared to make a determined effort to re-open the shops
with non union employees.
The City Council approved plans for the proposed new
Isolation Hospital, the building to cost something more
than one hundred and eight thousand dollars.
Paris, France—The reduction of the German indemnity
to fifty billion gold marks from the present total of one
hundred and thirty-two billion and the cancellation of the
French debt to Great Britain is the basis of a solution of
the problem of indemnities.
The French and British Officials. French Officials
approve the scheme provided it carries with it a clean cut
pledge of assistance in case of attack and assures France
the alternate wherity or in part of Great Britain's 25 per
cent share of the total indemnity.

Self-Reliance

By Edgar A. Guert

Who builds his hopes on flimsy things.
The joy of his home more possession brings.
He builds his home on flimsy things.
The joy of his home more possession brings.
He builds his home on flimsy things.
The joy of his home more possession brings.

Life has no crashing fears for him
Who knows his hand in working trim.
And self-reliance looks about him
In every need and working trim.
And says, "No failure I'll admit
Till I have tried to do it."

Wisdom and faith and courage say
Who knows his hand in working trim.
The rich resources of the will
Are man's supreme possession still.
Who knows his hand in working trim.
The rich resources of the will
Are man's supreme possession still.

OUT OUR WAY - By Williams

Horoscope

By Mary Blake

If July 21st is your birthday, the best hours for
you on this date are from 8:30 a.m. to 8 a.m., from
5 p.m. to 6:30 p.m. and from 10:30 p.m. to 11:45 p.m.
The danger periods are from noon to 1:15 p.m. and
from 8 p.m. to 9:30 p.m.

The astrological indications for July 21st show
more negative than positive results for efforts put
forth. Opportunities will be present, but will "pass
you by" whilst you are making up your mind as to
whether to accept them or not. Discussion will
raise its head in the home circle, to the discomfort
of all concerned.

The child born on this July 21st will be more
dominated than demoralized, easily bullied by those
around it. It will only be made self-reliant by those
about it. It will be due to a temporary need for
the child to "sink or swim." Its disposition will be
cheerful, and it will be in receipt of much sincere
and inspired affection. Nature has not stunted it
with its natural resources.

Your ideas are, if born on July 21st, like the
jaws of the Medes and Persians, unchangeable and
unstable. In every direction you are sure to find
a groping for that which is, however, you cannot
blind yourself, although you try to do so, to the fact
that it will be due to a temporary need for the child
to "sink or swim." Its disposition will be cheerful,
and it will be in receipt of much sincere and inspired
affection. Nature has not stunted it with its natural
resources.

You, figuratively, put yourself on the back, and
adopt a "better-than-thou" attitude, which does
not provide for respect or affection. You flatter
yourself that you will be a strong one, whereas, on
lookers call you both obtuse and pigheaded. The
ability to say "No" is reason and of course,
no center less disfigurement of others may be with your
ways, you, at least, will always be prepared that
you alone, of all the regiment, are "in step."

In your home life, either as a woman or as a
man, you are emotional and try most unsuccess-
fully to run the entire family. There is no "give
and take" in your disposition, an absence of tol-
eration, and little or no sympathy. Nevertheless,
no center less disfigurement of others may be with your
ways, you, at least, will always be prepared that
you alone, of all the regiment, are "in step."

There may also be a connection between the American
in putting on a duty of 71 cents a bushel on
our wheat and the termination of the French treaty.
Some of Japan's exports to Canada—like, for in-
stance—came in under the minimum rates fixed
by the French treaty. The Japanese duty on wheat
is a measure of retaliation.

These appear to be incidents in the "blasting"
operations forehanded by Mr. Bennett in his
efforts to get the Canadian wheat market open to
every profitable for Canada-Manitoba Free Press.
"An enterprise of crime and a handsome price."

Health and Diet Advice

By Dr. Frank McCoy

GREEN CORN
Corn on the cob is one of the most widely en-
joyed foods of the summer months. To many people,
summer has not officially arrived until they have
eaten that first delicious ear of corn, steamed with
butter.

Green corn in season may be used in the diet
with good results and in larger amounts than can-
died corn which is more starchy. Boiling ears
will be found helpful to those suffering with con-
stipation, for no matter how carefully the green
corn is chewed there are many fibers which pass
through apparently without having undergone any
great change. When much of it is eaten, the bowels
move freely because there is a large amount of in-
digestible substance in the green corn which passes
through the body so quickly that it does not fer-
ment.

The hulls of the green corn are very tender and
do not scratch and irritate the intestines as they
would if the corn were dried. These tender hulls
furnish the bowels with sufficient bulk so that
they will act more freely. Those who are consti-
pated will find that eating this last food quite
often during the season. Whether you pluck the corn
from your own garden rows or buy it, it is a
good plan to use it as fresh as possible.

When choosing fresh corn, take the ears which
are milky and have well-puffed-out kernels. The
hull should be a fresh, bright green. The fresher
the corn, the better the taste.

Corn on the cob is about 75 per cent water,
about 60 per cent sugar and about 14 per cent
protein. It contains good amounts of potassium,
sodium, magnesium, phosphorus, and chlorine.
It is interesting to know that green corn con-
tains a much larger proportion of mineral salts than
is found in cornmeal or in dried field corn. Its
potassium alone is four times as plentiful as the
amount found in ordinary cornmeal.

Fresh corn should not be cooked for a long time,
as the starch cells of green corn are readily de-
stroyed in the new state. Some people prefer the corn
eaten from the cob with butter. Others prefer the
corn cut from the cob and served with cream. When
eaten from the cob, the fresh corn should be slightly
by placing the bottle of cream in warm water, then
pouring this over the warm corn which has just
been removed from the fire.

Butter used on fresh corn contains enormous
quantities, the corn being cut from the cob and
prepared in a creamy, steamed form. It is
also used mixed with lima beans as succotash, and
makes an excellent corn soup.

When using canned corn, you should remember
that it is three times as starchy as green corn and
contains three times as much sugar. It is not a
starchy vegetable and should be the only starch
eaten at that meal. Corn cut from the cob
makes a very tasty soup. No flour thickening
should be used. The fresh corn cooked and buttered
makes a good diet combined with string beans.
Cut corn and turnips go well together. There are
an infinite variety of other dishes which can be
made by blending fresh green corn with the most
starchy vegetables.

QUESTIONS AND ANSWERS

QUESTION: Y. asks: "Will you please answer
in the column just how injurious home brew is?
My husband says it is all right and drinks about
four quarts each night, and sometimes five or six
for years. He says it would have affected him be-
fore now if it were ever going to."

ANSWER: Some people can stand more than
others, but I am sure that four quarts daily of any
kind of beer will finally prove injurious to anyone.
Perhaps your husband prefers living dangerously,
but you'd better be sure to keep his life insurance
premiums paid.

QUESTION: R. Arnold J. writes: "I would
like to know what causes prostration un-
der the sun and if there is anything I can do to
stop it. I am twenty-one years old and very healthy.
I would be glad to have your advice."

ANSWER: Excessive prostration is caused by
some degenerate toxin. It is a strong odor
there has been an invasion to the skin of certain
bacteria. A rise may be accomplished by follow-
ing a well-balanced diet and abstaining from sun-
baths a week and cold water baths daily. I do not
advocate the use of perspiration preventives.

QUESTION: M. P. C. asks: "I am a young man
please tell me why I always get pimples on my
nose after eating almonds or walnuts?"

ANSWER: There is an acid contained in the
skin of these nuts which causes itching and
pimples. This is why you notice pimples on the
tongue after eating them. You should either blanch
the walnuts or substitute blanched almonds or
peanuts.

The Passing Show

By J. S. Cooper

Times must keep up a famous dice is hard up. Jer-
ty's husband, the Baron Leopold Popper-Popberg,
have been unable to keep up the \$2000 a month payments
on Jerzy's jewels. And the jeweller doesn't want to re-
spond because the value of the jewels has declined 35
per cent since last year.

O. O. McIntyre has voted the lament of 20,000 blondes
in 20,000 New York love notes, that that sugar daddy
can't stand the queues along the shore by the depression
to live with their own wives.
It is a real depression, sure enough.

Here's a new definition of a millionaire, to suit the pe-
riod. It was given by Nicholas Murray Butler, university
president, at a dinner recently. His definition: "A present-day
millionaire is one who has \$50,000 in cash."

Charles M. Schwab, regarded as a multi-millionaire, says
there are no American millionaires today. Many of the
famous fortunes founded in the late nineteenth century are
disintegrating; the fantastic totals of the boom days of 1890
have disappeared; some of the fortunes have completely
vanished.

One well-known multi-millionaire whose income from
conservative railway stocks was \$3,000,000 yearly, has not
drawn a cent of interest last year. The same multi-millionaire
has closed his 250 acre estate on Long Island and dismis-
sed 110 of his servants, though many of them have been
obliged to remain in their quarters and to subsist on his
garden produce.

Many Long Island millionaires with fancy farms are
selling milk to the neighbors. The same multi-millionaire
has closed his 250 acre estate on Long Island and dismis-
sed 110 of his servants, though many of them have been
obliged to remain in their quarters and to subsist on his
garden produce.

Doukhobor Women on Hunger Strike

PRISONERS AT NELSON WEEP FOR DEAD KIN

Resentment Finds New Mode of Expression for Political Ills

NELSON, B.C., July 20.—In protest against the detention of two Doukhobor children, wards of the government in Victoria, 130 Doukhobor women imprisoned here since late in May for parading in the nude, went on a hunger strike Saturday and since then have abstained from food.

On hearing that the children had been released, the women hid the remaining portions of Saturday's food ration and inaugurated the strike. The food was later found in a dark corner of the room house in the jail.

HOLD FUNERAL RITES
Sunday morning the women held funeral rites for the dead children. Carrying a loaf of bread, a tin of water and salt, they paraded about the jail yard singing and weeping. This continued for some time, after which they sang for the balance of the day.

Monday the women adopted a sullen role. Becoming weaker, they remained in bed today. The older ones have been without food since Saturday, but the younger ones have shown a desire to eat.

WITH YOUNG BABY
One woman with a six-weeks-old baby, a sick woman and a 12-year-

He's King Of 'de Gang' At Marbles

Nimble knuckles won the crown of national marble king for Harry Corum of Louisville, Ky. He outdid all his rivals in the tenth annual marble tournament at Ocean City, N.J. Last year he was runner-up in the same meet.

old girl have not observed the strike. This is the second time Doukhobor women have gone on a hunger strike in the jail here since the wholesale arrests earlier in the summer. A group jailed before the present inmates were sentenced went without food for four days, with the decision of the directors to reduce the fine. The sale price was stated to be approximately \$2,000.

The American Chemical Society recently revealed that mixing sugar with mortar makes a concrete wall much stronger.

AIRMAN PLANS LONGEST FLIGHT

NEW YORK, July 20.—Roger W. Williams, trans-Atlantic aviator, will be accompanied by an Eskimo woman driver when he takes off about Aug. 15 for Athens with the intent of creating a new world's distance record.

Miss Ely Kaley, only recognized Eskimo aviator of her sex, will share the controls, he said, when he leaves Ford Beach, Peck, in an attempt to break the mark of 5,011 miles established by Russell Boardman and John Polando on a flight from New York to London.

Miss Kaley, 28, has flown for two years.

Canada And U.S. Co-operating, Able To Control World

TRAIL, B.C., July 20.—That Canada and the United States, co-operating in international affairs as they do in mining, could command world leadership, was the belief expressed by S. G. Haylock, vice-president and general manager of the Consolidated Mining and Smelting Company, in members of the British Columbia division of the Canadian Engineers' Association and Metallurgy and the British Columbia section of the American Institute of Mining and Metallurgical Engineers, here today.

W. A. MacKenzie, Minister of Mines, said British Columbia's gold production was up twenty-five per cent for the first six months of this year.

Quarrelling Miners Ask For Assistance

DRUMHELLER, Alta., July 20.—Miners and operators of Drumheller valley have decided to call for aid in settling their wage dispute. Following a meeting, at which the mine owners and the miners agreed to a meeting, they were decided to send Fred Harrison, a well-known labor leader, to Vancouver, where he is expected here Thursday to help settle the question.

A conciliation board inquired into the salary dispute and returned a majority report favoring the miners' salary reduction. The operators' representative on the board, however, issued a minority report supporting the company demands for drastic cuts. The miners accepted the majority report, but the operators accepted the minority report, leaving the situation deadlocked.

Pincher Ck. Pioneer Woman Succumbs

PINCHER CREEK, July 20.—One of the first three women to arrive in this district, Mrs. Elizabeth Kettle, aged 78, is dead. Mrs. Kettle came to Pincher Creek in 1883 with her husband, Charles Kettle, one of the original Royal Northwest Mounted policemen who died in 1923. They journeyed to this place from the end of the trail at Maple Creek by horse and wagon.

Mrs. Kettle was born in Ontario, Ont.

Air Express Line Is Now Organized

NEW YORK, July 20.—Formation of the first nation-wide air express service in the United States is in a rapid expression, was announced today by Gen. George G. Gibbs, president of the Postal Telegraph-Cable Co., after a conference here with representatives of seven leading airlines.

The new service will make it possible to ship an express parcel from San Francisco to New York in 24 hours, he said.

Custer Massacre Survivor Is Dead

GREENWICH, N.Y., July 20.—Chief Louis Prairie, 71, one of the Sioux Indian scouts when Custer's forces were annihilated, died Tuesday. He was one of the original 400 Texas Rangers.

BOY BADLY BURNED

WINNIPEG, July 20.—Lighting a match to aid in stealing gasoline is believed to have led to the injuries sustained by Earl Maltman, 16, who was seriously burned last night. A man, Ray McFarlane, and another juvenile are held by police.

Pomplids Are Go-Getters For Slimy Cutworm

CALGARY, July 20.—The cutworm which worry the western wheat farmer has been found to be a "pomplid" and is a pest of the grain grower.

The "pomplids" are a new species of worm, discovered in investigations into cutworm damage in parts of Saskatchewan and Alberta. They will not stop human beings but prey on the cutworm.

FIFTEEN KILLED IN TRAIN WRECK

MEXICO CITY, July 20.—Fifteen persons were killed and 28 or more were injured today when a train from Lerdo struck a crowded street car in the suburbs of Toluca. The street car service has been suspended for more than a hour, because of a fire, and was re-opened only last night.

Didsbury Farmer Released From Custody Monday

Alex Currie, Didsbury farmer, was released from custody on Monday on a charge of attempting to obstruct justice by means of a threat.

It was alleged that Currie had tried to obtain a writ of habeas corpus from the court of the Hon. W. Chambers of Didsbury, the amount to be paid in \$5 and \$10 bills the next day to a person on the Rosedale bridge, outside the town. The threat was to be thrown over the wall side over into the river.

The note threatened the mayor with death, if he informed the police. The mayor, taking up the challenge, notified the police and a trail was set.

A resident of the town came along a short time later and by chance Currie saw him. He was arrested on suspicion and a charge laid.

No evidence was available as to his connection with the letter and he was released.

Citizen Asks For Injunction Against Town

The town of Peace River is the defendant in an interesting suit filed in Supreme Court by Bernard S. Kaufman of that place.

Kaufman is the owner of three lots in the town of Peace River, on which were three buildings. Fire, which came in through them on the night of December 30 last, destroyed the buildings and the property.

Recently Kaufman procured material and let a contract for the reconstruction of the damaged building. He is now using the same material, which he says is worth half the price named in the contract.

The town officials, however, stopped the work, refusing to allow him to proceed unless the damaged property was pulled down, serving him with a notice on June 24 to tear the building down within five days.

In his suit he is asking for an injunction restraining the town of Peace River from interfering with his building work, and asking costs.

Awards At Horse Show On Tuesday

Today evening, July 19, in the arena.

Service saddle horses—Male or gelding, not exceeding 13 hands, to be ridden by a first or second prize rider, with a classification at any class "A" horse show or exhibition, a close of entries, 1. SUIT FOLLOWS FATAL CRASH

EXPECT RECORD CROWD AT FAIR

Belief that Citizens Day at the fair would result in a large net profit received across at the Edmonton fairgrounds, the city council will have to deal with the forecast for clear and sunny weather.

A report received from Mrs. W. W. Brown, president of the fair, has the effect that weather instruments at the Dominion meteorological station at Regina, Saskatchewan, show excellent weather conditions would prevail on Citizens Day.

This information is received with the understanding that the people who are hoping that Citizens' Day will prove the most successful day of the fair.

The holiday crowd movement to the fair grounds commencing on Wednesday afternoon. The fact that the weather is so favorable for the sale fairs here are closed in optimism.

ing to James Fitzgerald of this city, taking the main highway in the vicinity of Kamloops, bound from this city to Kamloops.

It is reported that the bridge on the highway between Kamloops and the truck collided with a car.

In the crash Kelly received serious injuries from which he died almost instantly.

It is alleged that Mrs. Eva Brown, who was driving the car, was speeding and was negligent in the accident.

J. R. Drysdale is setting for plans for the fair.

Gillespie Exhibit Features Pegasus Flying Horse

The price-of-the-day display by the Gillespie Grain Company is Pegasus, the Flying Horse. This is not one of the horses that pays money in the pari-mutuel pools, but a horse made famous by Jimmy Harrington of La-

View of tearing up street rail road tracks on the north side of 110th (Alberta) street, between 80th and 86th streets, preparatory to the laying of the new street car tracks will be commenced Monday morning. It was learned from R. C. Marshall, manager of the Crowfoot Engineering Co., Ltd., which has the contract for the paving. This project is costing \$100,000.

Paving of the south side of the street between 80th and 86th streets, the street railway work was completed on July 1, work being suspended until the completion of traffic to the Exhibition grounds. The Exhibition grounds on the avenue will be finished at the same time.

Some of the original units are as home for the friendly wind it shows numerous cabins, each of which can be reached by a small path.

The five motors are driven by propellers which are continually turning in the breeze created by an electric fan.

This booth has been prettily decorated with a canopy and a perfect setting for the different foods, flours and mashes manufactured by the company.

The Gillespie Grain company employs 150 men at the present time and the various products and methods are prominently displayed.

about the stretch, and it is expected to be completed in about five weeks' time.

REAL LEAGUE SEVEN DAY FAIR

Budover Wins Canadian Legion Claiming Race Tuesday

PRICES DROP AS FAVORITES RUN TRUE TO FORM

Longest Price of Day Paid in Seventh Race When Manx Jester Wins to Reward Straight Backers With \$21.55

Budover, five-year-old, long-legged, was owned by the Harper and Alfred Stables, turned in one of the smartest performances of his equine career, under the smart riding of popular Johnny Longdon, at the Exhibition Grounds track Tuesday afternoon to race past the wire a winner in the Canadian Legion Claiming Purse, that featured the second day's racing of the Edmonton Exhibition Association meeting.

Racing over the oval in the good time of one minute, 27.3 seconds, Budover led six other classy starters past the judge's stand to win the feature event by a fine margin of racing that attracted a big crowd of horse players to the track. Jockey Longdon went out to win all the way with Budover and, after keeping him right in the thick of the leaders for the first half of the race, gradually pushed him into a safe lead, which he held to the finish.

Manx Jester, going all out for the first money, pressed the pace for the first half of the race, but although making a real stretch drive, he could not make the fast-traveling Budover, the third place finisher.

Flora Dom was in the fourth place, followed by the third money, pressed the pace for the first half of the race, but although making a real stretch drive, he could not make the fast-traveling Budover, the third place finisher.

Flora Dom was in the fourth place, followed by the third money, pressed the pace for the first half of the race, but although making a real stretch drive, he could not make the fast-traveling Budover, the third place finisher.

Four Boats Will Represent Dominion In Rowing Events At Olympic Games

ADD HALIFAX CREW TO LIST FIRST NAMED

Hamilton Leanders, Pair From Coast and Joe Wright on Team

By MARK DUMFRIES
Canadian Press Staff Writer
PORT DALHOUSIE, Ont., July 20.—The Canadian Olympic committee decided last night, after two days of speed over the Olympic course at the Hamilton-Leanders regatta, that the Halifax crew would represent the Dominion in the coxed pair event at the Olympic trials Monday from Toronto to Antigonish for a spectacular race in which the Bluebirds lost slipper entirely off the course and then came back to win by a quarter length in time that was not considered.

OUTCASTS RIVALS
Leanders, short-stoking crew that represented Canada at the British regatta game two years ago, outdistanced the rival boats to earn an entry berth. The Toronto Argonauts, who represented Canada at the London games, a length and a half behind to win in the amazing time of five minutes, 45 seconds—fastest time ever recorded in North America.

Argos, a pre-race crew with a mishap finish, were unable to get away from the starting line. The Hamilton Leanders, however, eight winners last week at the Dominion International regatta at Port William, crossed the finish line a full length back of Argos. McGill University, a set of lightweight, was fourth.

WRIGHT DOES WELL
Joe Wright, Toronto's sturdy row, who has been playing recent credit to Leander since the final Australian settled in Canada, worked an "iron man" feat without parallel in Henley's storied history. He won the single in the fast time of seven minutes and seven seconds. The Olympic rowing event is the Argonaut eight-oared boat in four and a half hours.

The dark-haired regular came from behind in the last half-mile to defeat Dan Wallace, Halifax, and Charlie Clarke of the Ontario Lachine. Johnny Durnan of Toronto won a bang-bang fourth.

The spectacular Vancouver double, De Mille and Pratt, won after following Bob Richards and Theo Dubois of Winnipeg, all out.

Southern Gomez Again A Winner
NEW YORK, July 20.—Lafayette Gomez had little trouble yesterday winning his 16th victory of the season, defeating the Chicago White Sox 6 to 3, with a seven-hit performance. It was the Yankees' fourth straight over Chicago.

Chicago—000 000 000—3 7 1
New York—010 010 000—6 2 2
Gomez, Father, Gregory, and Grube; Gomez and Jorgens.

TURECOPTILES AUSSIES TAKE LAST CONTEST AGAINST TIME

Score 152 Runs in 70 Minutes at Staten Island

LIVINGSTON, Staten Island, N.Y., July 20.—The Australian cricket team won their final game against the United States yesterday by a most impressive feat of scoring 152 runs in 70 minutes against a picked New York team.

THE GAMES HORSE
In one you would take to know, Steve Donohue regards Humourist as the games horse he ever rode.

However, Donohue is not the point of the story. Humourist, aptly named one of the horses and Jett, which raced in the colors of the United States, won the game yesterday by a margin of 100 to 1.

Vance Shelled Off Mound By St. Louis
ST. LOUIS, July 20.—After being held to one hit in five innings, the Cardinals pounded Dazzy Vance from behind in the last half-mile to defeat Dan Wallace, Halifax, and Charlie Clarke of the Ontario Lachine. Johnny Durnan of Toronto won a bang-bang fourth.

The dark-haired regular came from behind in the last half-mile to defeat Dan Wallace, Halifax, and Charlie Clarke of the Ontario Lachine. Johnny Durnan of Toronto won a bang-bang fourth.

The spectacular Vancouver double, De Mille and Pratt, won after following Bob Richards and Theo Dubois of Winnipeg, all out.

Southern Gomez Again A Winner
NEW YORK, July 20.—Lafayette Gomez had little trouble yesterday winning his 16th victory of the season, defeating the Chicago White Sox 6 to 3, with a seven-hit performance. It was the Yankees' fourth straight over Chicago.

Chicago—000 000 000—3 7 1
New York—010 010 000—6 2 2
Gomez, Father, Gregory, and Grube; Gomez and Jorgens.

AS THE SWIM SQUAD FOR CANADA IS COMPLETE

Victor's Swimming Trials Produce 13 Canadian Hopes

VANCOUVER, July 20.—Superstition means stay a thing to Canada's Olympic swimmers. They yesterday morning in Victoria, where the trials were held, and the trials were held in complete at last.

BRADMAN MAKES 57
Bradman made 57 runs in Australia's first innings yesterday, but he was not a well played innings of 60 which included nine fours.

Three wickets were down for 134 when Captain W. G. Grace came in, and he hit the wood on to men an extent that the necessary runs were picked up with only two minutes remaining.

Pirates Break Even With Philadelphia
PITTSBURGH, July 20.—The league-leading Pittsburgh Pirates lost a half game in the penultimate game yesterday by a margin of 100 to 1.

Ed. Brandt Checks Cincinnati Reds
CINCINNATI, July 20.—A last minute victory by the Cincinnati Reds willed away in the heat of the sun yesterday, and Ed. Brandt pitched down to another victory.

CAMERAMEN ON STRIKE
LOS ANGELES, July 20.—A strike of motion picture cameramen today up 12 productions was called yesterday in the studios of 18 independent cameramen of the Cameramen's Union. Strikers said the independent cameramen have been reduced to pay salaries comparable to those paid by the major producers.

THE GILLETTE

SAFETY

RAZOR

at 1/2 the price of the #2 Kroman

GILLETTE's announcement of the Gillette Blue Super-Blade replacing the \$2 Kroman De Luxe at half the price was welcome to shavers throughout the Dominion. It meant that almost any man can now afford utmost shaving ease and convenience. Here is a far superior blade offered at a figure possible only because of volume production and general acceptance.

The Blue Super-Blade is of extraordinary quality—a smoother shaving instrument made in addition to the regular blade in the green package. Men who insist upon the peak of performance are glad to pay its slight extra cost. This blade is heavier, sturdier—made of blue steel with rustless finish.

An entirely new manufacturing method—devised by the new management—assures uniform quality and a degree of keenness never before possible. Automatic grinding, honing, finishing and stropping are so arranged that careful inspection can follow every operation. Every reel of steel is tested for flaws by an exclusive photo-electric process. The outside sections of the blade are harder than the flexing center. This results in a blade soft enough in the middle to head easily without distortion while the outside, of an entirely different temper, takes and holds extremely keen shaving edges. Patents already granted the Gillette Safety Razor Company protect this important feature.

You'll find shaving far more comfortable when you use the Blue Super-Blade. Try it soon. It is easy to identify—contained in a blue package. Collophane wrapped. Buy a supply today. On sale everywhere, \$1 for 10, 50¢ for 5.

CONTEND SALE CANUCK WHEAT HANDICAPPED

Alberta in Brief to Ottawa
Parley Claims Market
Hit by Tariffs

Contending that the sale of Canadian wheat has been handicapped in countries outside the British Empire by the imposition of quotas and tariffs, and claiming that it is difficult to see the way any material advantage to Canadian wheat producers would result from the establishment of quotas in the United Kingdom for Empire wheat, the Alberta government, in a brief submitted to the Imperial Economic Conference which opened at Ottawa suggests that careful exploration should be given to the possible advantages of a preferential tariff in Great Britain on wheat produced within the Empire.

Statement of Mr. Parley's position on this and other matters was contained in a brief submitted to the conference on Wednesday by Mr. J. E. Brown.

The government, in its submission, states that "having in mind the paramount position of wheat in our national economy we are confident that the Canadian representative will maintain an attitude which will secure the greatest possible markets for Canadian wheat."

OUTSIDE MARKET.
This question will involve the consideration of the fact that the bulk of domestic wheat is sold on a market outside the United Kingdom, which imports over 250,000,000 bushels, while the average export surplus from Canada alone is about 300,000,000 bushels and also that the bulk of Canadian wheat is sold on a market outside the United Kingdom.

On the question of currency the government maintains that it has now arrived in the development of this country for the purpose of the necessary machinery to properly handle Canadian wheat, and that the Canadian representative will maintain an attitude which will secure the greatest possible markets for Canadian wheat.

There is a general belief, outside the government, that the Canadian representative will maintain an attitude which will secure the greatest possible markets for Canadian wheat, and that the Canadian representative will maintain an attitude which will secure the greatest possible markets for Canadian wheat.

IMPROVED PRICES.
Inasmuch as Great Britain is the most important market for Canadian wheat, a restoration of a normal exchange parity between the pound sterling and the currency of Canada would result in an immediate increase in the price received for the entire production of Canadian wheat.

PAYMENTS MADE.
Dealing specifically then with the case of the wheat producer, Mr. Parley said that the money advanced had been advanced at six per cent interest, and that every farmer who had advanced the money had been repaid in full.

REBATE ASKED.
Mr. Parley would go to the speaker or dentist attending, and ask for \$1 worth of work, say \$10, and when the check was forwarded he would say to the speaker or dentist, "I have been repaid in full, and I am asking for a rebate of \$10."

UNIFORM PRICES.
Three uniform prices charged by Canadian companies at the ports of the United Kingdom, Mr. Parley said, would be a great advantage to the Canadian wheat producer.

WE URGE.
We urge, the government, the necessity of obtaining free access to the United Kingdom for dairy products, while any policy of British preferential tariff applied to dairy products should be of assistance to our producers.

THE GOVERNMENT.
The government also favors the policy of endeavoring to increase interest in British moving picture production, and the government also favors the policy of endeavoring to increase interest in British moving picture production.

THE GOVERNMENT.
The government also favors the policy of endeavoring to increase interest in British moving picture production, and the government also favors the policy of endeavoring to increase interest in British moving picture production.

Platinum In Woodchucks Is Nature Scheme

Belleville, Ont., July 20.—Platinum-blende woodchucks have joined the list of animal and bird oddities in this district. The first specimen was reported in April.

Noting near Belleville, Fred Wilkes came upon this stranger woodchuck sitting at the side of the road. It was pure white, the platinum blende was visible only by a tiny black nose and paws.

**CANTEEN FUND
AT CONVENTION**

**Board's Administration
Comes in for Much Criticism
Tuesday**

The Canteen Board funds and their administration was the storm centre at the Wednesday morning session of the convention of the provincial association of canteens held at the Legion in the Macdonald hotel. The board was criticised to close late Tuesday night.

A. Breton, C. E. Elton, president of the storm when he asked Dr. H. Wade, of Hanna, treasurer of the board, to explain the position of the board. He said that \$3,000 had been lent the Hanna branch of the Legion.

Dr. Wade, who had been asked to explain the position of the board, said that the board was not a financial or auditor's body, but a social body.

OUTLINE OF POLICY.
Dr. Wade replied with a general outline of the policy of the Canteen Fund Board, that it is not allowed to be a financial or auditor's body, but a social body.

Dr. Wade said that the board was not a financial or auditor's body, but a social body, and that it was not allowed to be a financial or auditor's body, but a social body.

Police Worry

Over Jobless
Ottawa Trek

Hitch-hikers and Rod-riders
Come in for Much Attention

The "On-to-Ottawa" movement among the unemployed of the Dominion, which has been the subject of so little police action in removing hitch-hikers and rod-riders across the country, is a matter for the Dominion government through-out the country. Apparently the Dominion government is afraid of a concentration of unemployed along the route of the "On-to-Ottawa" movement.

"Obviously," he said, "we have no control over any such activity by the Dominion government through-out the country. Apparently the Dominion government is afraid of a concentration of unemployed along the route of the 'On-to-Ottawa' movement."

"I have taken the only action in my power, that is, to issue the minister of justice, urging that it do the best it can to remove the trouble-makers moving from one province to another."

"I consider that any movement, say from British Columbia east, should be stopped at the mountain and the men prevented from drifting into Alberta."

"In whether there is such a movement, I am not sure. Information I possess having been in the papers beyond this I have no more information."

According to the effect that the R.C.M.P. are preventing the movement of transients to Eastern Canada from the West has led to strong protests on the part of both Edmonton and Calgary officials.

It is believed that this move on the part of the police is being made in an effort to prevent an influx of unemployed into Eastern Canada, and, ultimately, into Ottawa.

Mayor D. K. Knott said Wednesday that he had communicated with the Dominion government through-out the country. Apparently the Dominion government is afraid of a concentration of unemployed along the route of the "On-to-Ottawa" movement.

Hold German Day July 31

German Canadian Union of Alberta will hold this year at Victoria Park on Sunday, July 31.

The celebration will get under way Saturday evening, July 30, with a banquet in the Rose Room, King Edward Hotel, and a program of entertainment at the Edelweiss Hall.

On Sunday at one p.m. a parade of decorated cars will proceed from the Market Square, via Jasper avenue, to the parade ground, back on 10th street to Jasper street and then via McDonald Hill to the 100th street bridge and west to Victoria Park.

A full program of speakers and athletic events has been arranged. National folk dancing and handicraft displays will be featured at the celebration, which will be concluded with entertainment at the Edelweiss Hall on Sunday evening.

Dalrymple, Mrs. Pyle and Mrs. Pyle's entourage will be awarded reserve championship.

194th Battalion
